what is

MORPHEUS8

Morpheus8 is a fractional skin treatment that stimulates collagen production of the underlying layers of the dermis. By targeting the deeper layers of the skin, the building blocks will reorganize themselves in a natural anti-aging process.

IMPROVES THE APPEARANCE OF:

- ✓ Wrinkles
- ✓ Discoloration
- ✓ Acne Scarring

COMMONLY TREATED AREAS:

- ✓ Lower Face
- ✓ Neck

FREQUENTLY ASKED QUESTIONS

Breaking down boundaries.
The first full body fractionated technology.

WHAT AREAS CAN BE TREATED?

Morpheus8 can be used on any areas that can benefit from sub-dermal renewal. While the most commonly treated areas include the lower face and neck, any areas of the face or body that exhibit wrinkles, acne scars, loose or crepey skin, and stretch marks are suitable for treatment.

HOW MANY TREATMENTS WILL I NEED?

The number of treatments needed is dependent on the severity of your skin concerns. On average, three treatments are recommended for most conditions.

HOW QUICKLY WILL I SEE RESULTS?

Visible results can be seen within a few days, but typically after three months the most noticeable results appear. Improvements continue up to six months after treatment.

WHAT IS THE BENEFIT OF FRACTIONATED ENERGY?

Fractionated RF energy is a scientifically proven method to reduce wrinkles and rebuild collagen and fat. It is minimally invasive, using a matrix of micro pins to renew deeper layers of the skin with almost no patient downtime.

WHAT IS THE BENEFIT OF RF ENERGY?

RF energy heats the deep layers of the skin in a controlled way to revitalize the collagen. The treatment will improve skin complexion and texture for a more radiant and youthful appearance.

CAN ANYONE USE MORPHEUS8?

The benefit of Morpheus8's color blind technology is that it can be used on all skin types. The unique properties allow even darker tones to be treated.

CAN THIS BE USED IN COMBINATION WITH OTHER TREATMENTS?

Yes, Morpheus8 can be used in the same treatment session, or a few days after other treatments.

WHEN CAN I PUT MAKEUP ON AFTER TREATMENT?

Since patient downtime is minimal, makeup can be applied 1 to 2 days after the treatment. Patients should expect to see micro lesions a few days after treatment and slight redness for up to 1 week depending on treatment parameters.

WHAT KIND OF PROCEDURE CARE IS REQUIRED?

Patients should moisturize the treatment area and avoid direct sun exposure. It is also recommended that patients use a good, broad spectrum sunscreen every day. In addition to reducing their future risk of skin cancer, sunscreens also reduce wrinkles and slow the aging process.
